## ABOUT HUNGAZ

Up to 100 players compete in matches with battle royale-style gameplay. Players move around a three-dimensional playing field, with additional moves such as jumping, grabbing/climbing, or diving to assist gameplay. The aim is to qualify for subsequent rounds by successfully completing each of the randomly selected mini-games. Certain mini-games involve running towards a finish line at the end of the map, playing tag with other players, while others add elements of teamwork. On every mini-game, obstacles appear around the map for added complexity. Players who are too slow or who fail certain requirements for a mini-game, are eliminated. On the final round, the remaining few players compete in a final match with a randomised mini-game designed for a smaller player size. The winner of the match is the last player standing.
